

object

```
graph BT; A["rapp_email.email_sender.  
EmailSender"] --> B["object"]
```

A diagram illustrating an object reference. A dark blue arrow points upwards from a gray rectangular box at the bottom to a white rectangular box at the top. The gray box contains the text "rapp\_email.email\_sender." followed by "EmailSender" on a new line. The white box contains the text "object".

rapp\_email.email\_sender.  
EmailSender
