

CloudMsg

```
classDiagram
    class CloudMsg
    class SpecificClass["RappCloud.CloudMsgs.WeatherReportForecast.WeatherReportForecast"]
    SpecificClass --|> CloudMsg
```

The diagram illustrates a generalization relationship in UML. A white box labeled 'CloudMsg' is at the top, representing the superclass. A dark gray box at the bottom represents the subclass, containing the text 'RappCloud.CloudMsgs.WeatherReportForecast.WeatherReportForecast'. A blue arrow points from the subclass box up to the superclass box, indicating that the subclass inherits from or specializes the superclass.

RappCloud.CloudMsgs.Weather
ReportForecast.WeatherReportForecast
